

SL Paper 2

The diagram shows a model of coastal advance and retreat.

[Source: http://science.jrank.org/article_images/science.jrank.org/coasts-and-coastal-processes.1.jpg]

- Identify **two** reasons shown on the diagram why some coasts advance. [2]
- Explain why cliffs are often found along retreating coasts. [3]
- Explain the global distribution of ocean ridges. [5]
- Examine how the exploitation of **one** named oceanic resource has led to geopolitical conflict. [10]
