

## EPORTFOLIO ASSESSMENT TASK 2

### Answers:

1. There is pros and cons which says a few things for school uniform and against school uniform. For example, social equality, avoid promiscuity, eliminate inferiority and superiority, freedom of expression, false sense of security = outside world surprise, lack of color = boring and depressing.
2. It gives them a team spirit, it gives them a sense of belonging as they are all the same, no bullying.
3. If there is school uniform you get less bullied as everyone wears the same thing and students are actually less scared to go to school. 160,000 students miss out on school because they are actually scared of getting attacked by other students so the uniform might make one less point to bully the students. If you have school uniform discipline will rise up. If we are looking smart we feel more smarter and less aggression and bullying will happen to other students.
4. People believe that school uniform helps to improving your concentration and learning in the class and it reduces students to be distracted in the class and it makes them work more efficiently.
5. She says that they can still be pricey, and it is sometimes really difficult to shop for uniforms because sometimes the uniform is only limited to one shop. She says that it is a shame that people

miss out two years in dressing how they want. Still, she says that it is great that they have school uniforms, as it makes them look smarter. That is great because they are role models, as they should look smart for younger students.

6. A more traditional uniform includes in them different varieties of smart things such as tie, a shirt, a blazer and formal black trousers. Casual uniforms are something that they would wear on normal daily appearance, but the main difference is that all traditional uniforms make school look smarter. They give students a sense of pride and they feel smarter.

7. If you are wearing a wrong uniform it is going to lead to a punishment, as in the text, it says that if you are wearing the wrong black skirt then that is inappropriate and this leads to a punishment. It is unacceptable and if you are not following school rules it is going to lead you to punishment.

8. The genre is a poster. The audience are teens that appear in school, age 12 and above to 18. Year 6, MYP to DP1. Male and Female.

9. For text 1 and text 2, they are both about school and specifically about changes in school uniform. They are both aimed at teens, male and female, both include some images and both have bits of information. Contrast for text 1, it is more for visual learners as text 1 is all about the pictures and not much written information. It is more to entertain us, as well as a bit to inform,

as there is some bits of information, but not as much as to compare to text 2. In text 2, it is more about to inform, there is a significant amount of written information.

10. It does help; it shows people get happy with their own clothes. They are happy to wear the school uniform. There are a few pictures about the school uniform being good and a few pictures about the uniform being not so good. Indeed, there are pictures that are for the school uniform and a few points about being happy without school uniform. For example, freedom of expression, it is very effective for kids to have freedom of expression as they can express themselves as well as some people can actually understand them a little bit more. As mentioned before in the text, Chloe says specifically that school uniform may be very pricey, which isn't good because if you spend so much money on the uniform you might not have money for your other clothes which aren't school uniform.

11. In text 2, Chloe states that some of the citizens of school are not happy to have school uniforms, but most of the students actually like and prefer to have the school uniform. In Australia, most of school uniforms are very different from Britain.

Australian schools are not as strict as British schools, they don't require to have a traditional school uniform, which is blazer, shirt, tie, and so on. Australian schools have very casual school uniforms, even sometimes Australian students attend school in bare feet. Australian students don't have bad attitude for school uniforms, as it's almost the same clothes they would wear in their free time.
