

Dear Mrs. H

I am writing this letter, to explain why having a school uniform is a great idea.

School uniforms are important and this letter is going to explain to you why.

In school having correct school uniform is required. School it's not a place to waste and play time it is a place where you going to learn and need to learn.

Having school uniform is also quite important, as if everyone dressed the same way there is simply no reasons to get bullied. Because of how you dressed up, in that was no one will feel ashamed or embarrassed how they are dressed. For example, in American public schools there is many children which are not quite well dressed. There are other students in the same school, students which are better dressed might bully the students who are not dressed as well as they are. For instance American public schools would have school uniform, it will reduce the bullying in the school.

School uniform also teaches students really important lesson for the future work experience. What I mean by that is school uniform makes students look smart, which is a important lesson in life. School uniform teaches you how to dress smart which will be very helpful when you are applying for the workplace, it is needed to dress appropriately to place which you are going to applying for the work. Most of the times it is going to be a smart dress.

In actual fact school uniform is actually helpful, as there is less bullying overall less problems with students, and mostly they do not get picked on as the uniform is all the same. Thank you for reading my letter.

With best regards.
